SKILLS

- **Languages**: C, C++, Java, Python, SQL, HTML, CSS, JavaScript
- **Data Science:** Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib
- **Tools/Platforms**: Excel, Power BI, MySQL Server, Git, GitHub
- **Soft Skills**: Leadership, Problem-Solving, Communication, Adaptability

PROJECTS

Warehouse vs Retail Sales Analysis| *Link* Mar' 25 – Apr' 25

- Performed **data cleaning, transformation, and EDA** in Python on a **300K+ record** sales dataset, engineering features like *Date*, *Quarter*, and *Total Sales* for time-series analysis.
- Conducted **Warehouse vs Retail comparison**, analyzing top products, price-volume correlation, and seasonality; identified Warehouse contributing **78% of total revenue**.
- Created **matplotlib/seaborn visualizations** (monthly trends, product performance, channel contribution) to deliver insights on **peak sales months** and demand patterns.
  Tech: Python (Pandas, Matplotlib, Seaborn)

Fraud Transaction Analysis | *Link* Jun' 25 – Jul'25

- Investigated transactional data using **SQL rule-based logic** to flag high-value, foreign, and high-risk transactions.
- Crafted **complex SQL queries** to uncover fraud patterns across merchants, locations, device types, customer segments, and time periods; automated reporting via **MySQL–Excel ODBC integration**.
- Designed a **fraud intelligence dashboard** in Excel featuring pivot charts, slicers, and KPI summaries to enhance fraud intelligence and improve monitoring efficiency.
  Tech: Excel, MySQL, ODBC, Pivot Tables, Data Visualization

Blinkit Grocery Data Analysis | *Link* Oct' 25 – Nov'25

- Analyzed Blinkit grocery sales data to evaluate sales performance, customer satisfaction, and inventory distribution across multiple outlets.
- Cleaned and transformed 8,500+ transactional records in Power BI, performed modeling, and created DAX calculations for KPIs such as total sales, average sales, item count, and customer ratings.
- Developed an **interactive Power BI** dashboard to visualize sales by outlet size, location, and product category, providing insights to optimize inventory, improve customer satisfaction, and guide strategic expansion decisions.
  Tech: Power BI, DAX, Data Modeling, Visualization

TRAINING

Data Analytics & Industry Tools| *W3 Grads* | *Certificate* Jun' 25

- Gained hands-on experience with **data science tools** including **Python, Excel, SQL, and Power BI**.
- Performed **data cleaning, analysis, and visualization** to extract meaningful business insights.
- Strengthened grasp of the data science workflow — from data collection to visualization and reporting.

CERTIFICATES

Oracle Analytics Cloud 2025 Certified Professional | *Oracle* Oct' 25
Alpha (DSA with Java) | *Apna College* Dec' 24
Cloud Computing | *NPTEL* Nov' 25

ACHIEVEMENTS

- Solved 100+ Data Structure and Algorithm problems across platforms like LeetCode and GeeksforGeeks, strengthening problem-solving and algorithmic thinking.
- Volunteered to teach underprivileged children free of cost. Jul' 24

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology Aug'23 – Present
  Computer Science and Engineering; CGPA: 7.40
- **Academic Global School** Gorakhpur, Uttar Pradesh
  Intermediate Apr' 20 – Mar' 21
  PCM; Percentage: 86.2%
- **Saraswati Shishu Mandir Sr. Sec. School** Gorakhpur, Uttar Pradesh
  Matriculation Apr' 18 – Mar' 19
  Percentage: 88.33%
